

SANITISE YOUR KITCHEN WITH **READY-2-GO**

Ready-2-Go is a rinse-free, food-safe sanitiser, supplied at a ready-to-use concentration for all food processing areas.

LET'S TALK **WHAT IS READY-2-GO?**

Ready-2-Go is a **food-grade sanitiser** for use in kitchens and food processing areas. It is an excellent sanitiser for general surfaces, pots and pans, floors and for equipment.

When cleaned then treated with Ready-2-Go, these items are rendered safe and free from bacteria.

Ready-2-Go 750ml RTG750 Ready-2-Go 5L RTG5

KEY BENEFITS

KILLS BACTERIA

Effective on a wide range of bacteria

QUICK & EFFECTIVE

Ready-to-use formula – no dilution required

NO RINSE

No rinsing is required after use

PROTECTIVE BARRIER

Leaves a non-toxic film on surfaces that prevents bacteria from multiplying

WHEN & HOW TO USE

Ready-2-Go can be used to sanitise all food processing areas.

Apply to surface with mop, cloth or sponge.

Leave in contact with surface for 5 minutes or more to kill any bacteria. Rinsing is not required, but treated surfaces should be adequately drained before processing operations resume.
