IMPROVE THE FEEL OF FABRICS WITH **SOUR SOFTENER**

SOUR SOFTENER is a dual-action product which functions both as a fabric softener and laundry sour. The gentle acidity in SOUR SOFTENER acts to neutralise any carried-over alkalinity from the wash-water in the first stage of the laundry process.

LET'S TALK

WHAT IS SOUR SOFTENER?

SOUR SOFTENER is a liquid additive for laundry washing machines. It improves the feel of washed fabrics by imparting a softness and bulkiness to the fibres and it simultaneously neutralises any alkaline residues.

SOUR SOFTENER is a perfumed blue liquid that improves the feel or handle of fabrics by imparting a distinct softness and bulkiness to the fibres.

SOUR SOFTENER 5L **SOU5**
SOUR SOFTENER 20L **SOU20**

KEY BENEFITS

**SUSPENDS SOIL
FOR RINSE ACTION**

Ability to suspend soil & mineral particles to facilitate rinse action

**GENTLE & EFFICIENT
ECONOMICAL**

High in neutralising value, therefore very economical

**SCENTED WITH
FLORAL PERFUME**

Scented with a refreshing floral perfume to freshen fabrics

**IDEAL FOR ALL
WASHABLE FABRICS**

All fabrics whether white or coloured will be left soft & fragrant

WHEN & HOW TO USE

Laundry:

The quantity of SOUR SOFTENER to be used depends on the size of the machine and its load, and the quantity of LAUNDRY BREAK used in the wash cycle.

It is best to pre-mix the SOUR SOFTENER with some water to aid mixing.
