STAINED CARPETS AN ISSUE?

REMOVE THEM, WITH **U-REMOVE**

U-REMOVE is a carefully formulated, stable liquid suspension that contains bacterial spores that are harmless to humans.

LET'S TALK WHAT IS U-REMOVE?

U-REMOVE utilises advanced biologically active ingredients to digest and consume organic soilage and uric acid salts left by urine in fabrics and carpets. U-REMOVE destroys urine odours and helps to prevent stains.

U-REMOVE has a sustained action that keeps it working as long as soilage is present, so it keeps on cleaning and deodorising even after the cleaner has left the room.

U-REMOVE 750ml **URE750**
U-REMOVE 5L **URES**

KEY BENEFITS

**KILLS
ODOURS**

Kills odours from fabric and carpets
